Credit Management, Control & Debt Recovery - Kenya

Overdue accounts are an everyday fact of doing business, we all know that!

Our business is built to help you collect what you are owed, quickly and efficiently & get paid!

How do we do this? Excel Credit has a proven track record, spanning decades, in the Recovery of Debt. We also have the skills to assess an account to find out if you are likely to be paid or if you need to start legal action.

What next? [Click here](#) and send us your unpaid debt details and we will take it from there, don't worry, if we need any more details we will contact you.

What does it cost? We simply charge a percentage of the amount we collect, if we collect nothing then, no fee. We also add interest and compensation to the debt and aim to collect the full amount increasing the amount returned to you if we succeed.

What are you waiting for?? Give us a try, send us your unpaid debt OR debts and let us show you how **we can recover what you are owed.**

For more information visit us at www.excel-credit.com or email info@excel-credit.com. To submit a batch of debts please contact info@excel-credit.com and we will discuss your requirements. Some of our customers want to retain or recover the trading relationship which will change our approach to the recovery of your money.

Remember, no collection, no fees!!
